and the European GNSS Supervisory Authority.**

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities,¹ and in particular Article 49(2), Article 75(2) and Article 110(1) thereof,

Having regard to Commission Regulation (EC, Euratom) No 2342/2002 of 23 December 2002 laying down detailed rules for the implementation of Council Regulation (EC, Euratom) No 1605/2002 on the Financial Regulation applicable to the general budget of the European Communities,² and in particular Articles 33, 90, 166, 167 and 168 thereof,

Whereas:

- (1) Under Article 110(1) of Council Regulation (EC, Euratom) No 1605/2002 and Article 166 of Commission Regulation (EC, Euratom) No 2342/2002, as amended by Commission Regulation (EC, Euratom) No 1261/2005 of 20 July 2005, grants are subject to an annual programme which specifies the objectives and the schedule of calls for proposals together with the indicative amount; that work programme is adopted by the Commission.
- (2) Under Article 168(1)(c) of Commission Regulation (EC, Euratom) No 2342/2002 of 23 December 2002, as amended by Commission Regulation (EC, Euratom) No 1261/2005 of 20 July 2005, grants may be awarded without a call for proposals where

¹ OJ L 248, 16.9.2002, p.1.

² OJ L 357, 31.12.2002, p.1.

the nature of the beneficiary is such that it is the only possible choice for a specific action.

- (3) Under Article 168(1)(d) of Commission Regulation (EC, Euratom) No 2342/2002 of 23 December 2002, as amended by Commission Regulation (EC, Euratom) No 1261/2005 of 20 July 2005, grants may be awarded without a call for proposals to bodies specified in a basic act.
- (4) Article 75(2) of Regulation (EC, Euratom) No 1605/2002 provides that a financing decision precedes the commitment of expenditure, except where appropriations may be implemented without a basic act, in accordance with Article 49(2).
- (5) Under Article 15(2) of the Commission Decision of 15 March 2005 on the internal rules on the implementation of the general budget, the annual work programme for grants constitutes a financing decision within the meaning of Article 75 of the Financial Regulation and Article 90 of the detailed rules for the implementation of the Financial Regulation, provided that it constitutes a sufficiently detailed framework. It therefore falls to the Commission to adopt the 2006 work programme for grants in the fields of transport and energy.
- (6) In accordance with Article 15(1) of the Commission Decision of 15 March 2005 on the internal rules, appropriations which may be implemented without a basic act, in accordance with Article 49(2) of the Financial Regulation, must still be subject to a framework equivalent to that of a financing decision adopted by the Commission.
- (7) A framework should therefore be adopted for actions to be carried out under the headings of administrative support expenditure and operational actions arising from the Commission's institutional prerogatives and preparatory actions within the meaning of Article 49(2) of the Financial Regulation.
- (8) Contracts with basic acts charged to administrative support expenditure or operational expenditure which have not been included in the annual work programmes for the specific programmes are covered by this Decision.
- (9) It also falls to the Commission to adopt a financing decision for 2006 for the grants allocated for 2006 to the European Aviation Safety Agency (EASA), the European Maritime Safety Agency (EMSA), the European Railway Agency (ERA), the Intelligent Energy Executive Agency and the European GNSS Supervisory Authority.
- (10) Grants and contracts relating to specific programmes are the subject of separate work programmes adopted by the Commission which are equivalent to financing decisions.

HAS ADOPTED THIS DECISION:

Article 1

The general work programme for grants in the fields of transport and energy for 2006 set out in Annex I is hereby adopted.

Article 2

The general work programme for grants in the fields of transport and energy is equivalent to a financing decision within the meaning of Article 75(2) of Regulation (EC, Euratom) No 1605/2002 for grants which are awarded without a basic act and subject to calls for proposals. The actions in question are described in Annex I A.

Article 3

For the fields of transport and energy, Annex III lays down the contracts to be implemented under the headings of administrative support expenditure and operational actions arising from the Commission's institutional prerogatives and preparatory actions within the meaning of Article 49(2) of the Financial Regulation and is equivalent to a financing decision.

Article 4

In the fields of transport and energy, Annex IV lays down the contracts to be implemented under the headings of administrative support expenditure and operational actions arising from the specific programmes or budget lines with a basic act and is equivalent to a financing decision.

Article 5

Financing for 2006 in the form of grants for the European Aviation Safety Agency (EASA), the European Maritime Safety Agency (EMSA), the European Railway Agency (ERA), the Intelligent Energy Executive Agency and the European GNSS Supervisory Authority, the exact details and amounts of which are set out in Annex II, is approved.
