Facts

- Partner country of the EU in the Euromed
- Population of 10.9 million

International aviation agreements not only improve market access, but also provide new business opportunities for European companies and ensure fair and transparent market conditions based on a clear regulatory framework. This agreement will also provide more connections and better prices for passengers. Global connectivity is a driver of trade and tourism, and directly contributes to economic growth and job creation.

Tunisia has expressed an interest in a Comprehensive Aviation Agreement with the EU. The negotiations have been concluded and the text was initialled in Tunis on 11 December 2017.
