Information category	Description
Programme name	EURAZEO Sustainable Maritime Infrastructure thematic fund
Objective(s) and scope	EUROZEO fund aims to o finance environmentally friendly infrastructure and technologies in the maritime sector that support the transition to a low carbon economy. As a consequence, the fund will have the objective of pursuing sustainable development within the meaning of Article 9 of Regulation (EU) 2019/2088 (known as the "Disclosure Regulation") and will participate directly in the deployment of O+, the Group's ESG strategy - one of the pillars of which is the achievement of net carbon neutrality by 2040. The Fund will support around fifty European facilities that will back the transition of
	the maritime economy to become carbon neutral by 2050 and in line with the ambition announced in the European Green Deal.
	This fund offers investors a solution, which will generate quarterly distributions from rents received on maritime assets. The Fund will directly own these maritime assets to limit risk.
