Austria

* Project title

200 character(s) maximum

FEMtech Internships for Female Students

* Description of the project

5000 character(s) maximum

FEMtech Internships for Female Students – Entry into a Research Career
FEMtech Internships for Female Students supports and mentors female students to take up scientific and engineering positions in industry in order to meet the future demand for researchers and R&D experts. It aims to encourage young female undergraduates in the area of science and Technology to take up a Career in Research as well as to encourage companies to integrate women in R&D Projects and activities.
The internship lasts one to six months.

* Impact / benefits

5000 character(s) maximum

Female students gain insight into application-oriented research and can gain first professional experience. Female students are supervised by a qualified person in the organisation during the internship and receive a salary for the internship.
