

## **PETITION**

**We the undersigned travel professionals hereby petition the European Union to maintain reasonable CRS rules that will ensure fair access to reservations in Europe.**

**Computer Reservation Systems (CRSs) are indispensable working tools for European travel agents and travel managers.**

**History shows that when dominant airlines own CRSs reasonable CRS rules are absolutely necessary to preserve consumer choice and promote fair competition.**

**In particular, these rules should continue to require airlines that own CRSs to participate in a non-discriminatory fashion in all other CRSs.**

**Reasonable CRS rules are what we, and all European consumers, deserve.**
