

# First ever global deal to curb international aviation emissions

Participation in the Global Market Based Measure (GMBM)

System based on market size  
not on geography

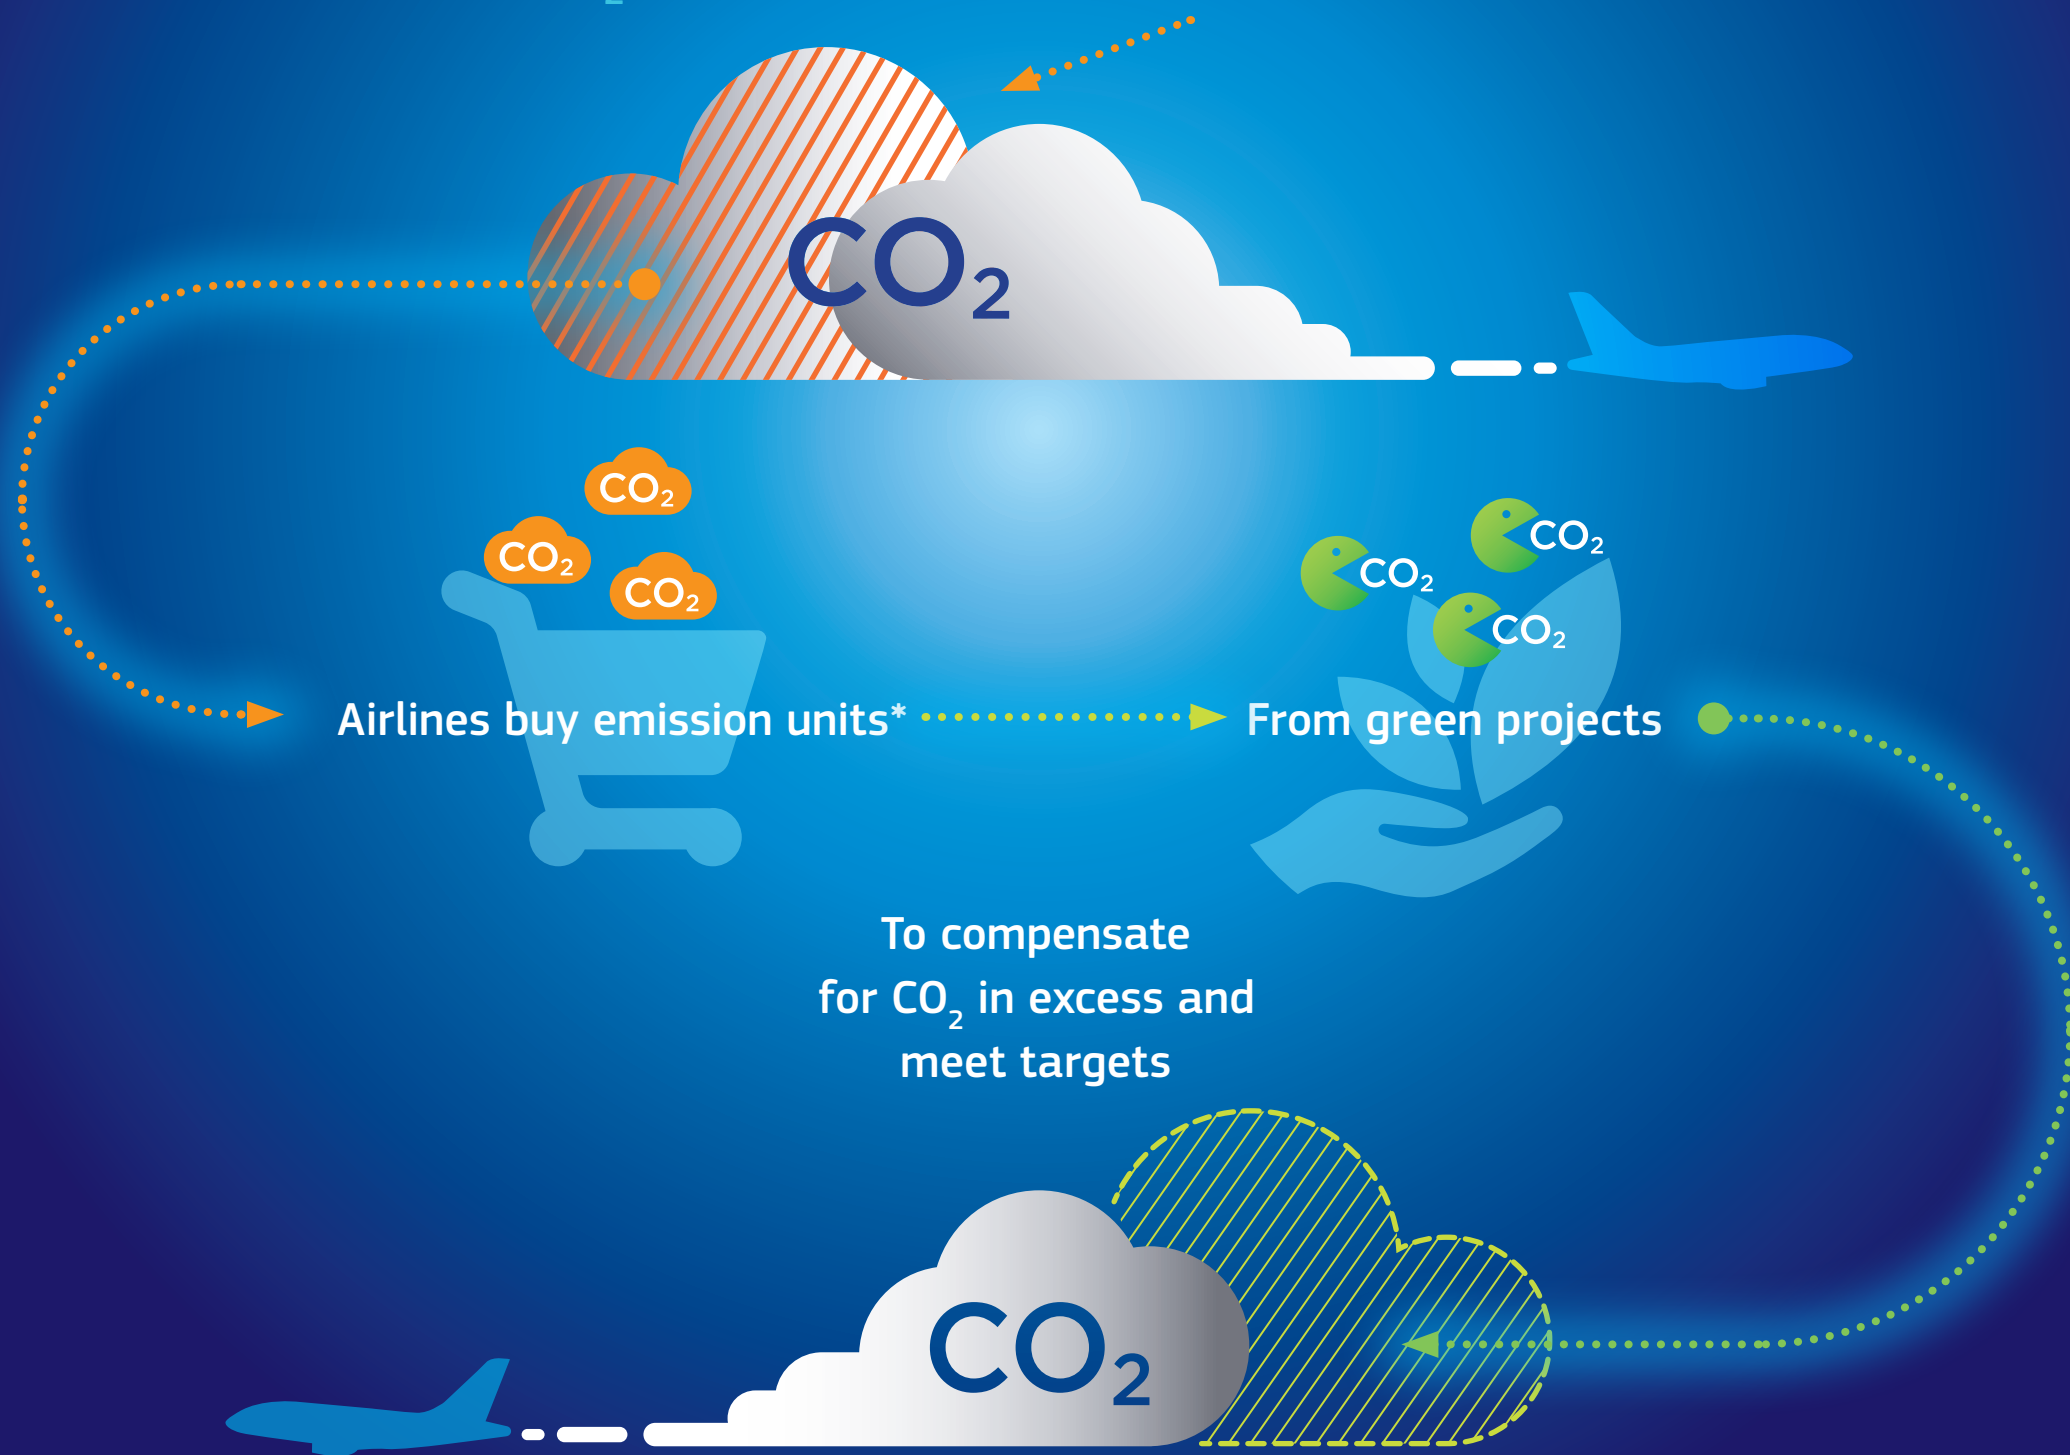

GMBM will cover (2020-2035) around **80%** of all international aviation emissions to reach carbon neutral growth beyond 2020 levels

# Reducing the climate impact of international aviation

Basic functioning of the Global Market Based Measure (GMBM)

FROM 2020, CO<sub>2</sub> PRODUCED **IN EXCESS** OF 2020 LEVELS...

... WILL HAVE TO **BE COMPENSATED**

 \* emission unit = 1 tonne of CO<sub>2</sub>
