1 ASSESSMENT OF THE CURRENT STATE OF ALTERNATIVE FUELS IN THE TRANSPORT SECTOR

An assessment of the current state and future development of the market as regards alternative fuels in the transport sector, including in light of their possible simultaneous and combined use, and of the development of alternative fuels infrastructure, considering, where relevant, cross-border continuity

Please report the current state regarding the current use of different fuels, the total number of alternative fuel infrastructures (AFIs) and the number of alternative fuel vehicles (AFVs).

1.1 PERCENTAGE OF CURRENT USE OF DIFFERENT FUELS FOR TRANSPORT

1.2 NUMBER OF CURRENT AFVs

2 NATIONAL TARGETS AND OBJECTIVES

National targets and objectives, pursuant to Articles 4(1), 4(3), 4(5), 6(1), 6(2), 6(3), 6(4), 6(6), 6(7), 6(8) and, where applicable, Article 5(1), for the deployment of alternative fuels infrastructure. Those national targets and objectives shall be established and may be revised on the basis of an assessment of national, regional or Union-wide demand, while ensuring compliance with the minimum infrastructure requirements set out in this Directive,

2.1 PERCENTAGE OF TARGETED USE OF DIFFERENT FUELS FOR TRANSPORT

Please report the main figures about energy sources for the transport sector

3 MEASURES NECESSARY TO ENSURE NATIONAL TARGETS AND OBJECTIVES ARE REACHED

Measures necessary to ensure that the national targets and the objectives contained in the national policy framework are reached

3.1 LEGAL MEASURES

Please provide the list of the measures adopted.

3.2 POLICY MEASURES AND INVESTMENTS

Please provide the list of the measures adopted.

4 MEASURES THAT CAN PROMOTE THE DEPLOYMENT OF PRIVATE ALTERNATIVE FUELS INFRASTRUCTURE

Measures necessary to ensure that the national targets and the objectives contained in the national policy framework are reached

4.1 LEGAL MEASURES

Please provide the list of the measures adopted

4.2 POLICY MEASURES AND INVESTMENTS

Please provide the list of the measures adopted.

5 MEASURES THAT CAN PROMOTE THE DEPLOYMENT OF ALTERNATIVE FUELS INFRASTRUCTURE IN PUBLIC TRANSPORT SERVICES

Measures that can promote the deployment of alternative fuels infrastructure in public transport services

7 REFUELLING POINTS FOR LNG AT MARITIME AND INLAND PORTS INSIDE TEN-T CORE NETWORK

Member States shall ensure, by means of their national policy frameworks, that an appropriate number of refuelling points for LNG are put in place at maritime ports, to enable LNG inland waterway vessels or seagoing ships to circulate throughout the TEN-T Core Network by 31 December 2025.

Member States shall ensure, by means of their national policy frameworks, that an appropriate number of refuelling points for LNG are put in place at inland ports, to enable LNG inland waterway vessels or seagoing ships to circulate throughout the TEN-T Core Network by 31 December 2030. Member States shall cooperate with neighbouring Member States where necessary to ensure adequate coverage of the TEN-T Core Network.

8 ASSESSMENT OF THE NEED FOR LNG REFUELLING POINTS AT MARITIME AND INLAND PORTS OUTSIDE THE TEN-T CORE NETWORK

The National Policy Framework shall contain an assessment of the need to install refuelling points for LNG in ports outside the TEN-T Core Network.

9 SHORE SIDE ELECTRICITY IN MARITIME AND INLAND PORTS

Member States shall ensure that the need for shore-side electricity supply for inland waterway vessels and seagoing ships in maritime and inland ports is assessed in their national policy frameworks. Such shore-side electricity supply shall be installed as a priority in ports of the TEN-T Core Network, and in other ports, by 31 December 2025, unless there is no demand and the costs are disproportionate to the benefits, including environmental benefits.
