

Projects presented under the EU-China Connectivity Platform

The attached list is a compilation of transport infrastructure projects presented at Expert Group meetings of the EU-China Connectivity Platform between 2016 and 2019.¹

Disclaimer:

The TEN-T related projects included in the attached list have been presented by the Member States concerned on a voluntary basis, in order to explore solutions to cover a potential financing gap, without prejudice of the final decision on financing which could be taken. The importance of level playing field among investors and project promoters, of geographically balanced list of projects, reciprocity and compliance with applicable EU rules and standards was recalled during the Expert Group meetings.
