

Article 3 of Delegated Regulation 2017/1926 sets out that each Member State shall set up a National Access Point.

As per Article 3.2, Ireland has decided to use its existing National Access Point set up to comply with the other delegated acts adopted under Directive 2010/40/EU to fulfil the requirements of Delegated Regulation 2017/1926.

The Open Data Portal hosted by the Irish Department of Public Expenditure and Reform – [www.data.gov.ie](http://www.data.gov.ie) – serves as the National Access Point.

The modalities of functioning of the National Access Point can be found in the Open Data Technical Framework which underpins the publication of open datasets on [www.data.gov.ie](http://www.data.gov.ie). The technical framework can be found at <https://data.gov.ie/pages/opendatatechnicalframework>.
